Join Western Sky and help conserve open and natural landscapes that have important natural, agricultural, scenic, recreational and heritage values

Western Sky Land Trust

Conserving Our Sense of Place

Imagine life in Alberta without its spectacular landscapes: rushing rivers flowing from snow-capped mountains, rolling foothills and our vast prairie grasslands. In 2005, a group of Calgary and regional landowners, concerned that Alberta's treasured landscapes would be lost forever, worked with conservation organizations, private citizens, government, and corporate partners to form Western Sky Land Trust.

A Unique Conservation Model

Western Sky protects critical watersheds in our region by conserving river corridors and open natural landscapes. We conserve vital habitats for wildlife and provide managed public access for recreation and education. We champion the conservation of environmentally sensitive lands that support the health of our watersheds. Active throughout southern Alberta, Western Sky has conserved over 27,000 acres in the municipal districts of Rocky View, Foothills, Wheatland, Kneehill, Big Horn, Newell and Warner. We will conserve an additional 4000 acres of irreplaceable watershed lands in the near future.

Join the **Friends of Western Sky Land Trust** and become part of a community of like-minded people committed to conservation.
